- "Ghetto Skyline" definitely made it's mark in reggae-history just as I bravely intended. I felt like I won a gold-medal when John Masouri made it reggae-album of the month in Echoes Magazine. The dub-version has been brewing for a long time, many things came in between. I livicate this to my sound-guru Internal Dread. Rest In Peace!"

Daweh Congo is one of Jamaica's longest and toughest survivors in the reggae-game. His moods are often serious and bold, perfect for dub.

Independent producer and sound-engineer Jonahgold took the opportunity to go very ambient and deep. This being his first complete album within the dub-field it had to come out interesting or not at all.

All tracks produced and mixed by Jonahgold:

1. Dubby Skyline
2. Dub Conscious (album-version)
3. One Dub
4. Dub A Bless
5. Dub Struggle
6. Dubsteppin
7. Dub Moon
8. Dub And Be Happy
9. Daydub
10. Dub Baby
11. Dub Brings Joy
12. Dubugee
